

INTERprint

OFFSET 320 INTERMITTENT PRESS

WHAT YOU NEED TO KNOW

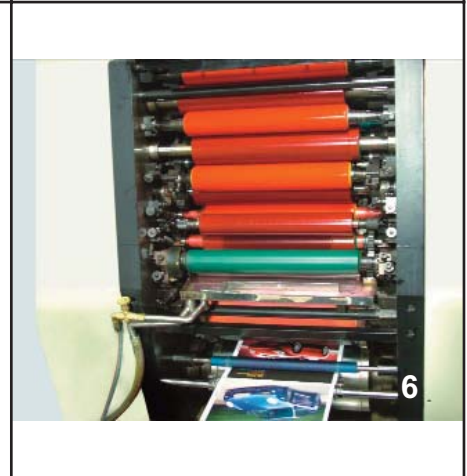

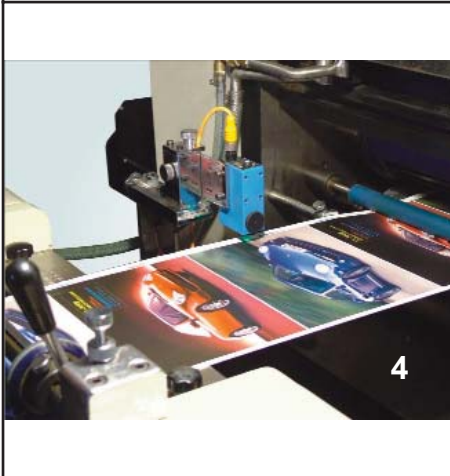

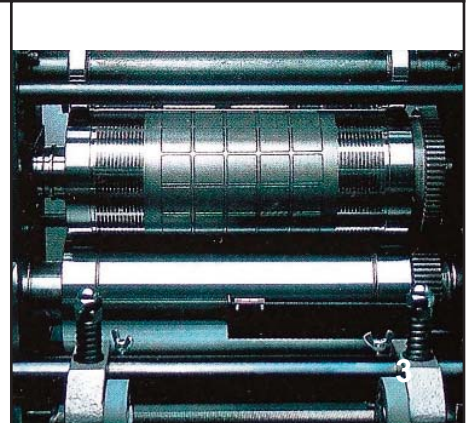

- ⇒ The INTERprint Offset 320 is a true, full servo, shaftless driven machine.
- ⇒ A typical six colour machine has 14 sets of servo's, providing high speed & precise registration.
- ⇒ Each print station has 19 rollers in the train to avoid issues of streaking and ghosting.
- ⇒ The Servo Control System means the press is free from roller change - it's fast, convenient & simple.
- ⇒ Controlling print length could not be simpler - simply input on the main control panel.
- ⇒ The Video Camera controls vertical and horizontal registration, improving quality & output.
- ⇒ A super-large print area of 300 x 350mm.
- ⇒ Each print unit is equipped to stop by lifting away independently when required, greatly extending the life of the machine.
- ⇒ Fitted with a Touch-Screen display for operator ease - it provides a powerful human < > computer interface, with comprehensive inspection display, alarms and machine controls.
- ⇒ Large roll unwind and rewind capability.
- ⇒ Our supplier is a high quality, ISO 9001:2000 & CE Verified manufacturer.
- ⇒ Print-Partners can assist with trade-ins that are in good operating condition.
- ⇒ Our policy is NOT to include forward cover on exchange rates - so you can buy when the exchange is in your favour.
