

# INTERprint

Looking for a quality FLE XO press with the capabilities to put you ahead of the opposition? The guys at Print-Partners now bring you the INTERprint xceed range of high quality, innovative equipment that will win you the business.

## xceed

### What You Need To Know

- ⇒The INTERprint press range is a marriage of US design “know-how” and Asian efficiency.
- ⇒The press designs were conceived specifically to gain entry to the highly competitive US market.
- ⇒The xceed press carries precision helical gearing, European, Japanese and US made controls.
- ⇒The press can be engineered to accept tooling from your existing machine of the same size.
- ⇒Cassette Print Heads, Auto Sunday Drive, Auto Plate Cleaning and Cold Foil are standard.
- ⇒The security of backup with spare parts held in Australia.
- ⇒Print-Partners can assist with trade-ins that are in good operating condition.
- ⇒References are available from satisfied Australian & US based clients.
- ⇒Print-Partners policy is NOT to include forward cover on exchange rates - so you can buy when the exchange is in your favour.

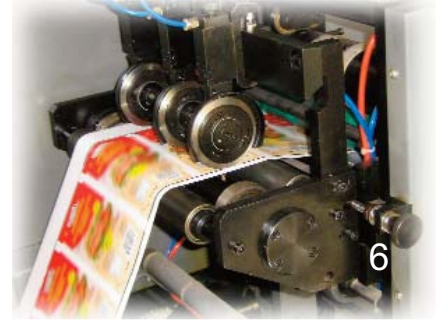

A nine colour xceed press under construction for installation in Australia.
